

This lift raises loads up to 700 lbs. and is portable or may be bolted to the floor.

SPECIFICATIONS

Capacity	700 lbs.
Length	48"
Width	24"
Max Height	42" w/wheels 37½" w/o wheels
Min Height	12" w/wheels 7½" w/o wheels
Speed-Up	27 sec.
Motor	1/3 hp.
Weight	560 lbs.

MADE IN USA

The 240 Industrial Lift work table provides a safe and efficient means for an operator to lift a product or component to a desired height for assembly, positioning, stacking, conveying, and feeding applications. The lift will increase labor efficiency, improve safety, and help eliminate bending, lifting, and excess fatigue caused by heavy or repetitive lifting.

The 240 Industrial Lift has a table top dimension of 24" x 48", which will raise loads of 700 lbs. to a height of 42" in 27 seconds. The table surface may be raised or lowered, with a convenient foot pedal, which leaves hands free to safely perform other tasks.

- Heavy-duty 12 gauge steel construction
- Heavy-duty cam bearings
- 700 lb. capacity
- Caster wheels - 2 rigid, 2 swivel
- Red epoxy powder-coat paint
- Portable or bolted to the floor
- 1/3 HP motor - 172 rpm
- 115 Volts - 6.0 amps

Lowers to 7½" w/o wheels
12" w/wheels

Solid state controls are contained in one modular package.
Extra heavy-duty power supply cord provides long service.
