

These easy-to-use scissor jacks are perfect for raising motorcycles and ATVs.

MADE IN USA

UNIVERSAL SCISSOR JACK

ITEM 13008

The Universal Scissor Jack is great to use on our lift or on the floor. It supports 750 lbs. and provides a safe and convenient way to work on your equipment. Two different work height supports are included, with a rubber padded cradle for Sportster & V-Twin models with integrated transmissions. A safety pin is included.

- Minimum height 3½"
- Maximum height 15"
- 19" L x 6" W
- Heavy gauge zinc plated steel
- Safety stops with safety pin
- Adapters for various frame profiles
- 7/8" drive
- Weight 43 lbs.

LO-BOY SCISSOR JACK

ITEM 16999

Increase the stability of your project with our Lo-Boy Scissor Jack. A wide deck with a non-skid pad raises the front or rear end of bikes and ATVs, safely lifting up to 750 lbs. The Lo-Boy works great with all Handy motorcycle lifts.

- Minimum height 3½"
- Maximum height 13"
- 16" L x 10" W
- Heavy gauge zinc plated steel
- Safety stops with safety pin
- 7/8" drive
- Weight 43 lbs.

LITTLE GRUNT

ITEM 16868

A wider deck with a non-skid pad increases your lifting area for greater stability. Capacity is 1000 lbs., making the Little Grunt perfect for lifting ATVs and motorcycles.

- Minimum height 4½"
- Maximum height 20¼"
- 28" L x 13¼" W
- Heavy gauge steel
- Safety stops with safety pin
- 3/4" drive
- Weight 75 lbs.

NOTE: Do not use air impact guns to raise and lower these jacks.
